Training Suite Details

SAFEHANDS Health and Safety Consultants Ltd training suite has been purposely built to enable training to be carried out for our Clients, it is also available for hire to Non Clients. The training suite holds up to 15 persons.

The training suite has its own entrance and separate registration and reception area. It features the latest technology, plasma screen television, and separate audio system. A lectern is strategically placed to allow the trainer to have constant vision with all candidates. A laptop for running DVD's Power Point Presentations etc through the television is operated from the lectern. Also available within the training suite is an overhead projector, portable TV and Video and a Flip Chart. Candidates are provided with notepads and pens

The entire building offers full disable access, disabled toilets etc and has free car parking.
